
FANNY BAY
GROUNDWATER COLLECTIVE
What are you doing?
I'm making GROUNDWATER!
My parents said that our groundwater is low and we gotta protect it!
So I am making LOTS!
Noooo! That is just DIRT WATER! GROUNDWATER is water that lives underground.
Underground?
Yes underground! We use GROUNDWATER everyday, for drinking water, cooking, baths and MORE!
Come and learn with me from BOB THE SCIENCE GUY and see MIKE WEI's awesome, super cool groundwater model! They have juice and snacks too!
